DIFFERENTIATORS

EXPERIENCE. AGILITY. MISSION FOCUS.

- Proven federal past performance and award recognition
- Senior-level expertise across CISSP, CICISO, CASP, CEH and cloud disciplines
- End-to-end cybersecurity and compliance support
- Accelerated ATO and compliance outcomes
- Cost-effective, agile and responsive delivery
- Deep AWS, Azure and hybrid-cloud expertise
- Cleared personnel supporting sensitive environments
- Small-business agility with enterprise-level capability
- Mission-focused results with measurable outcomes

PAST PERFORMANCE (SELECTED)

REAL MISSIONS. LASTING IMPACT.

U.S. Customs and Border Protection (CBP)

Period: 2023 – Present

- Delivered financial and non-financial system ATOs within 60 days with zero cybersecurity findings.
- Resolved 2+ years of cybersecurity debt; 90%+ FISMA compliance; 3-year ATO.
- Established continuous monitoring dashboards and STIG enforcement.

Cybersecurity & Infrastructure Security Agency (CISA)

Period: 2019 – 2023

- Led Blue Team Security Control Assessments (SCA) as Lead/Deputy Lead.
- Developed SOPs, test plans, checklists, SAR/RAR and continuous monitoring artifacts.
- Supported RMF modernization and reduced manual compliance effort by approximately 35%.

Defense Security Cooperation Agency (DSCA)

Period: 2023 – 2024

- Engineered SIEM use cases, MITRE ATT&CK-aligned threat hunting and insider-threat mitigation.
- Automated SIEM analysis to reduce response timelines and improve operational visibility.
- Strengthened DoD compliance, Zero Trust and continuous monitoring practices.

U.S. Army Cyber Command (ARCYBER)

Period: 2019 – 2021

- Served as Managing Cybersecurity Director and Program Manager for the GUIDON program.
- Led compliance validation automation, continuous monitoring, and vulnerability management.
- Improved engineer productivity through streamlined processes and automation.

U.S. Army INSCOM (INSCOM G7)

Period: 2015 – 2019

- Delivered ICD 503/RMF architecture and authority-to-operate solutions for cross-domain systems.
- Used SecurityCenter/Nessus, NMAP and security test procedures to validate control implementation.
- Enabled two CTFs and two IATTs within ten months.

U.S. Air Force (SAF/AA – CDM / AF IC NCR)

Period: 2015 – 2019

- First USAF AWS and C2S authorized systems (2016).
- Executed seven A&A operations and governed eight hybrid systems.
- Established cloud security governance, continuous monitoring and compliance practices.
- Recognized as a gold-standard SaaS authorization effort.
